EXPERIENCE

Board Member/ Director of refugee assistance: HOPE AND GRACE INTERNATIONAL, Everett, WA 2015 - Present (Non-Profit Organization)

Currently working with refugees from South Sudan in Northern Uganda.

- Identifying and training potential leaders and empowering them with the skills necessary for social and cultural transformation.
- Assisting with basic necessities such as clothing, food and shelter.
- Implementing programs for sustainable enterprises such as drip irrigation for farming, brick production for shelter, and educating orphans in their thousands across the camps.
- Providing counselling to adults who have been victims of the abduction as child soldiers most of their lives and are now trying to find a place in society after both civil wars in Sudan and Uganda. In 2016, I visited five camps in Northern Uganda, the largest being Bidibidi which according to the United Nations is the largest refugee camp in the world.
- Encouraging thousands of refugees through radio broadcasts giving hope and comfort which, oftentimes is more important than food given the fact that the average life of a refugee in a camp is 20 years.
